

Soccer gives enjoyment

Editor, The News:

It is unbelievable to me when I hear that people actually think that soccer isn't a sport.

I play for the Laurel Soccer Club and I have seen how much these other boys and girls love it so much.

Soccer requires people to almost never stand still, which means we all stay fit and healthy. It is so upsetting to know that my own school will not support a program that so many love.

I just started playing this year and at first I wasn't so sure about this whole controversy. But now after seeing all of these other kids who enjoy it so much, I know that we need to have soccer in our school.

I know that it hurts us all to have to tell people, "We are the Laurel Spartans, but the soccer club, not our school."
